

WS12-INSPECTION Question

33

1. Tupiza Portilla, Solange Anahi

Inspector: Alina Villavicencio

- Execution: 0 (Error appears when running the program)

The screenshot shows an IDE with a project named 'prueba' containing a file 'Prueba.java'. The code in 'Prueba.java' is as follows:

```
4  * and open the template in the editor.
5  */
6  package prueba;
7
8  import java.util.Scanner;
9
10 /**
11  *
12  * @author Solange Tupiza search for electrical and electronic materials
13  * OOP-ESPE
14  */
15 public class Prueba {
16
17     /**
18      * @param args the command line arguments
19      */
20     public static void main(String[] args) {
21         public static void main(String[] args) {
22             Scanner sc = new Scanner(System.in);
23             String titulo, autor;
24             int ejemplares;
25
26             //se crea el objeto libro1 utilizando el constructor con parametros
27             Libro libro1 = new Libro("El quijote", "Cervantes", 1, 0);
28             //se crea el objeto libro2 utilizando el constructor por defecto
29             Libro libro2 = new Libro();
30
31             System.out.print("Introduce titulo: ");
32             titulo = sc.nextLine();
33             System.out.print("Introduce autor: ");
34             autor = sc.nextLine();
35             System.out.print("Numero de ejemplares: ");
36             ejemplares = sc.nextInt();
37 }
```

The IDE shows a compilation error in the output window:

```
run:
Exception in thread "main" java.lang.ExceptionInInitializerError
Caused by: java.lang.RuntimeException: Uncompilable source code - method main(java.lang.String[]) is already defined in class prueba.Prueba
at prueba.Prueba.<clinit>(Prueba.java:21)
Java Result: 1
BUILD SUCCESSFUL (total time: 3 seconds)
```

- Json file: 0 → (Doesn't have)
- books list on screen: 0 → (It gives an error)
- Total number of books: 0 → (It gives an error)
- Code quality: 9.4 → (It is necessary to put the constructor and the to string, put code in english, missing packages)

Total: 9.4/50
